ROLLO
HOMEMATIC EASE M25T

The Ease M25T battery motor was specially developed for roller blind and twin roller blind applications. Drive with integrated lithium-ion battery and soft start/soft stop technology. Normal mode for quick movement and scene mode for comfortable and even quieter driving. Integrated radio receiver for wireless control with remote control and Homematic IP app.

TECHNICAL DATA

Manufacturer	Hunter Douglas Homematic
Power supply	11.1 V DC
Power consumption	1000 mA
Torque	0.8 Nm
Revolutions / min	30
Max. Duty cycle	2 min
Operating temperature	0 ° up to +60 ° C

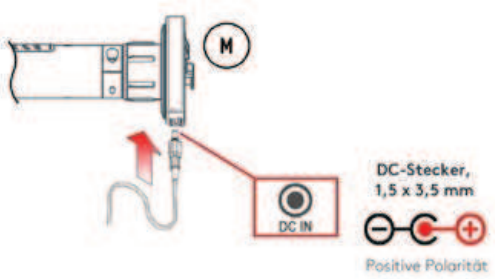

Protection class	IP 30
Protection class	III
Weight	540 g
Radio system	Hunter Douglas Homematic
Radio frequency	868 MHz
Article number	17.0802
